Grey

Beige (RG 1290)

Cinnamon (Antiqued)

Barley Beige

## Vinyl

Where restorations require a mix of vinyl and leather across panel and seat work, our vinyl colours have been developed to provide an exact match to our leather colour range. With a thick knitted cotton backing, our vinyl is hardwearing with good stretch qualities, making it ideal for trimming.

# Swatch Service

With extensive material & colour options, we know there's nothing quite like a sample in hand to help you in your decision. That's why we offer a free worldwide sample service. We can provide swatch cuttings for all of our materials, including bindings and pipings. Please contact us to request samples for your restoration project.

All swatches displayed on this card are subject to batch shade variations. Although minimal in most cases, we always recommend you receive swatch samples before placing an order with us. Larger sample cuttings are available on request.

Our online material & colour library is a comprehensive resource to help inform your interior fabric choices. You can also learn more about each material and how we structure our library in accordance with original factory production lines. To browse our swatches online, please visit us at [www.john-skinner.co.uk](http://www.john-skinner.co.uk).
